Sabre 42 Salon Express

Boat Type: Motor Yacht

OVERVIEW

Less noise, better fuel efficient, increased maneuverability..... many of the things that make a boating experience exceptional.

At Sabre, we consider our owners and potential owners to be valued members of the Sabre Design Team. The Sabre 42 is the result of our understanding that our clients want to enjoy the same levels of personal luxury and comfort that they now expect in their homes and in their automobiles. We have developed a new style, the Salon Express, available with or without a fly bridge, that allows owners to operate from the comfort of the yacht's interior or from the openness of an optional fly bridge. Technology is advancing rapidly and our owners have come to expect that when there is a new technology available, Sabre will employ it in all new designs.

We have dramatically changed the way we build our yachts, as well as the way in which they are propelled. Traditional values such as elegant interiors, fine craftsmanship and great looks remain, as our owners have come to expect, but below the surface things are state-of-the-art.

Take a closer look.
