# Sealegs 6.1M Sport Rib

Boat Type: Inflatable

## OVERVIEW

The Sealegs 6.1m Sport RIB is the most compact RIB in the Sealegs family, meaning it's perfect for negotiating smaller garages and spaces, or for a super yacht tender.

The state-of-the-art sport console featured on the 6.1m RIB can be customised to suit your needs. Chartplotter options go all the way up to an NSS12, or choose to add a Fusion Sound System with Signature Series Speakers to the console for music on the water - among others.

The 6.1m Sport RIB encapsulates the best of Sealegs technology in an efficient, agile package.?

### The Benefits

- Single handed operation, giving one person the freedom to launch their boat by themselves
- Immediate access to and from the water — no waiting, backing trailers, winching or parking
- Embarking and disembarking no longer means getting wet
- Children can safely be in the boat at all times, avoiding possible accidents
- More time on the water, less time spent getting in and out of water

- The ability to explore places inaccessible in a traditional boat
- Greater use of your investment

## SPECIFICATIONS

### Basic Information

Manufacturer:	Sealegs	Boat Type:	Inflatable
Model:	6.1M Sport Rib	Hull Material:	
Year:	2017	Hull Type:	
Category:	Power		

### Dimensions & Weight

Length:	16.00 ft	Draft - max:	1 ft 4 in - 0.41 meter
LOA:	16 ft 1 in - 4.9 meter	Bridge Clearance:	-
Beam:	8 ft 1 in - 2.46 meter	Dry Weight:	2530 ft
Deadrise Aft:	21.00 °		

### Tank Capacities

Fuel Tank:	21 gallons - 1 tank(s)	Holding Tank:	-
Fresh Water Tank:	-		

### Accommodations

Total Cabins:	-	Crew Cabins:	-
Total Berths:	-	Crew Berths:	-
Total Sleeps:	-	Crew Sleeps:	-
Total Heads:	-	Crew Heads:	-
Captains Cabin:	No		

## FEATURES

### Craft Features

Each Sealegs craft is powered by Sealegs patented Amphibious Enablement System, or AES. The AES, including a fully marinised system of hydraulically powered legs and wheels, is powered by a marinised 22HP inboard engine. This allows the craft to travel for up to 30 minutes within every hour at 7.5kph on land.

The fully integrated, turn-key package uses the same fuel source as the outboard, and is simple to learn and engage. Over time, the AES technology has improved to allow owners more freedom to use their Sealegs amphibious craft.

All Sealegs craft come standard with All Wheel Drive (AWD). Both the front wheel and rear wheels have their own wheel motor. This allows for maximum traction and terrain capability when encountering beach inclines of soft sand, shell, shingle and/or pebbles.

AWD greatly increase the maneuverability of Sealegs craft, but if further traction is required, reducing the pressure in tires can further increase traction in difficult terrain. Finally, diff-lock is available as an option to augment the functionality of AWD.

The diff-lock option allows operators to force all wheels to turn in unison, regardless of traction (or lack thereof) available to all wheels. This, combined with AWD, will allow a Sealegs craft to overcome more extreme conditions.

Max Payload (including passengers): 500kg (1102lbs)

Max passengers: 6 Persons, including driver

Fuel Capacity – Petrol: Below deck 80 litre (21 U.S. Gallons)

Top speed Max (Water): 35 knots (65kph/40 mph)

Recommended & Max Outboard: 1x 115HP (86 kW)

Top speed (Land): 7.5kph (5mph)

On-land power: Inboard Petrol engine, Honda - 24HP (18kW) 4-stroke, air cooled

Drive (Land): All wheel drive, Permanent with momentary diff lock option available

Brakes: Primary/Dynamic – Hydrostatic, Emergency/Automatic Park – Hydraulically released mechanical brake

Steering: Seastar power assisted hydraulic steering

Batteries: 1100CCA High Crank, Optional second battery (1100CCA) with selector switch

Seating: Twin driver seat, single bow seat, single console seat, Optional twin driver backrest, twin transom seat, transom hand-hold

Storage: Under-seat in front of console, 2x wet floor lockers, transom locker

Console: Centre console with fold down windscreen

Tyres: 25"x 12" all terrain 6-ply tyres on 12" alloy rims

Tubes: 6 chamber, Hypalon tubes. 520mm diameter

Drainage and bilge: Dual scuppers, 1100gph (4164Lph) bilge pump

Lighting: High intensity LED headlights (land use only), LED navigation lights

Deck: 3M anti-slip deck tread

Run Time (Land): 30 min continuous run time per hour with warning alarms

Maximum incline (Land): 11 Degrees (20% gradient) up or down, Avoid driving across a transverse incline

Maximum sea conditions: Up to 2.0m (6' 7") wave height, Up to 26 knot (49kph/30 mph) winds

Certifications: CE, U.S.C.G.
