Sealegs 7.1M Sport Rib

Boat Type: Inflatable

OVERVIEW

The Sealegs 7.1m Sport RIB is a classic. It was one of the first craft developed by the Sealegs International, and is beloved by owners worldwide.

The 7.1m has everything you need to go on an amphibious adventure. With a payload of 700kg and seating for up to 8 people, the sky is the limit. A 150HP outboard and 180 litre fuel capacity ensure that you get where you want to go, and the craft has enough power to reach 40 knots - or tow a water skier.

For the aspiring amphibian, the Sealegs 7.1m RIB is the perfect craft to take fishing or exploring.?

The Benefits

- Single handed operation, giving one person the freedom to launch their boat by themselves
- Immediate access to and from the water — no waiting, backing trailers, winching or parking
- Embarking and disembarking no longer means getting wet
- Children can safely be in the boat at all times, avoiding possible accidents
- More time on the water, less time spent getting in and out of water

- The ability to explore places inaccessible in a traditional boat
- Greater use of your investment

SPECIFICATIONS

Basic Information

Manufacturer:	Sealegs	Boat Type:	Inflatable
Model:	7.1M Sport Rib	Hull Material:	
Year:	2017	Hull Type:	
Category:	Power		

Dimensions & Weight

Length:	19.00 ft	Draft - max:	1 ft 4 in - 0.41 meter
LOA:	19 ft 6 in - 5.94 meter	Bridge Clearance:	-
Beam:	8 ft 7 in - 2.62 meter	Dry Weight:	2932 ft
Deadrise Aft:	21.00 °		

Tank Capacities

Fuel Tank:	21 gallons - 1 tank(s)	Holding Tank:	-
Fresh Water Tank:	-		

Accommodations

Total Cabins:	-	Crew Cabins:	-
Total Berths:	-	Crew Berths:	-
Total Sleeps:	-	Crew Sleeps:	-
Total Heads:	-	Crew Heads:	-
Captains Cabin:	No		

FEATURES

Craft Features

Each Sealegs craft is powered by Sealegs patented Amphibious Enablement System, or AES. The AES, including a fully marinised system of hydraulically powered legs and wheels, is powered by a marinised 22HP inboard engine. This allows the craft to travel for up to 30 minutes within every hour at 7.5kph on land.

The fully integrated, turn-key package uses the same fuel source as the outboard, and is simple to learn and engage. Over time, the AES technology has improved to allow owners more freedom to use their Sealegs amphibious craft. Read more about the technology by clicking through the menus below.

All Sealegs craft come standard with All Wheel Drive (AWD). Both the front wheel and rear wheels have their own wheel motor. This allows for maximum traction and terrain capability when encountering beach inclines of soft sand, shell, shingle and/or pebbles.

AWD greatly increase the maneuverability of Sealegs craft, but if further traction is required, reducing the pressure in tires can further increase traction in difficult terrain. Finally, diff-lock is available as an option to augment the functionality of AWD.

The diff-lock option allows operators to force all wheels to turn in unison, regardless of traction (or lack thereof) available to all wheels. This, combined with AWD, will allow a Sealegs craft to overcome more extreme conditions.

Max Payload (including passengers): 700kg (1543lbs)

Max passengers: 8 Persons, including driver

Fuel Capacity – Petrol: Below deck 80 litre (21 U.S. Gallons), Optional above deck Auxillary 100 litre (26 U.S. Gallons)

Top speed Max (Water): 40 knots (74kph/46 mph)

Recommended & Max Outboard: 1x 150HP (112 kW)

Top speed (Land): 7.5kph (5mph)

On-land power: Inboard Petrol engine, Honda - 24HP (18kW) 4-stroke, air cooled

Drive (Land): All wheel drive, Permanent with optional momentary diff lock

Brakes: Primary/Dynamic – Hydrostatic, Emergency/Automatic Park – Hydraulically released mechanical brake

Steering: Seastar power assisted hydraulic steering

Batteries: 1100CCA High Crank, Optional second battery (1100CCA) with selector switch

Seating: Twin driver seat, single bow seat, single console seat, Optional twin driver backrest, twin aft bench seat with transom hand-hold, aft bench seat hand-hold, twin transom seat

Storage: Under-seat in front of console, 3x wet floor lockers, transom locker

Console: Centre console with fold down windscreen

Tyres: 25"x 12" all terrain 6-ply tyres on 12" alloy rims

Tubes: 6 chamber, Hypalon tubes. 520mm diameter

Drainage and bilge: Dual scuppers, 1100gph (4164Lph) bilge pump

Lighting: Dual halogen marine headlights (land use only), LED navigation lights

Deck: 3M anti-slip deck tread

Range Estimate (Water): 150Km @ 4000 R.P.M. / 340Km [with aux fuel tank] @ 4000 R.P.M.

Run Time (Land): 30 min continuous run time per hour with warning alarms

Maximum incline (Land): 14 Degrees (25% gradient) up or down, Avoid driving across a transverse incline.

Maximum sea conditions: Up to 2.0m (6' 7") wave height, Up to 26 knot (49kph/30 mph) winds

Certifications: CE Cat C, U.S.C.G.
