Sealegs IKA11

Boat Type: Commercial Boat

OVERVIEW

The IKA-11 represents a paradigm shift in coastal and riverine professional operations and can be customised to the discerning luxury end of the recreational market. The boat comes includes a military grade all wheel drive amphibious system with a 6,500kgs (14,300lbs) capacity, full cabin, state of the art detection and monitoring (D&M) sensor suite, and the ability to access areas never before thought possible.

On the water is its a high speed interceptor and command centre. On land, it facilitates safe personnel transfers, covert reconnaissance, and maneuvers up steep hills to provide its sensors with height of eye equivalent to a warship.

The IKA-11 is powered by twin 335HP twin turbo diesels coupled to heavy duty ZF marine gears and Hamilton 241 Water jets. It can reach speeds of 40+ knots on water ad 12KPH (7MPH) on land.

SPECIFICATIONS
