Rossiter 14

Boat Type: Runabout

OVERVIEW

THE IDEAL 14-FOOT DEEP-V OUTBOARD POWER BOAT

The ideal 14-foot Deep-V Outboard. This is a craft with all the tradition and innovation of Rossiter Boats – coupled with exceptional fuel efficiency, ride and performance that are second to none! It's just 14 feet from stem to stern, but performs as if it was far, far bigger, having many features you would expect on much larger boats.The Rossiter 14 was designed to thrive in big water, with exceptional stability and safety, as well as a remarkably smooth, dry ride even when the whitecaps rule. Unlike other boats of similar size, the Rossiter 14 is rated by the Coast Guard for five adults and 50 horses (we recommend 40hp) – so if you want to get up on plane with the whole family on board, or pull a young water skier or two kids in a tube, you've found the perfect boat to do it.

Our Rossiter 14 also does very well with a 2 Stroke 25 hp if you are looking for a smaller engine. Since building the first Rossiter 14 for a Great Lakes customer some 12 years ago, I would have to say that the feedback remains consistent today with customers and marine operators alike saying that, *"the Rossiter 14 is, without a doubt, the softest, driest riding outboard in its class."*
With respect to construction of a Rossiter power boat, our hull design is unique to Rossiter with a focus on big-water performance, efficiency and ride, not to mention our commitment to quality fit and finish. Our boats have hand laid, solid hulls with a molded, foam-filled stringer grid, and the use of structural closed-cell foam cores used where needed to provide the necessary panel stiffness in our liners, decks and transoms. They also have a vinyl ester barrier coat to reduce the chance of osmotic blistering and print-through occurring. And, in fact, the only wood in our boats is the teak accents you see in the interior cockpit area. You should also know that our liners are bonded to the stringer grid, topsides and transom, independent of the deck assembly which is bolted to the sheer using machine screws every 6″ though a 1/4″ high density epoxy board which runs the length of the sheer. This method provides you with a very solid feel to the boat, thus enhancing the ride delivered by our hull shape and many years of enjoyment.

SPECIFICATIONS

Basic Information

Manufacturer:	Rossiter	Boat Type:	Runabout
Model:	14	Hull Material:	
Year:	2017	Hull Type:	Deep Vee
Category:	Power		

Dimensions & Weight

Length:	14.00 ft	Draft - max:	1 ft 10 in - 0.56 meter
LOA:	14 ft - 4.27 meter	Bridge Clearance:	2 ft 2 in - 0.66 meter
Beam:	5 ft 8 in - 1.73 meter	Dry Weight:	1110 ft
Deadrise Aft:	24.00 °		

Tank Capacities

Fuel Tank:	19 gallons - 1 tank(s)	Holding Tank:	-
Fresh Water Tank:	-		

Accommodations

Total Cabins:	-	Crew Cabins:	-
Total Berths:	-	Crew Berths:	-
Total Sleeps:	-	Crew Sleeps:	-
Total Heads:	-	Crew Heads:	-
Captains Cabin:	No		

FEATURES

FEATURES

- Planes with five adults
- Lots of well-drained and ventilated storage
- LED Navigation lights
- Unsinkable-level flotation
- Moderate Deep V with lifting pad and planing strakes providing hydrodynamic lift for superior fuel efficiency, and a top speed of around 35mph/56kph
- Seven, through-bolted deck cleats providing ample options for lines and fenders
- Large transom well, keeping the cockpit safe and dry in a following sea
- Cockpit drain system ensuring that all water drains to a Bilge Well equipped with an automatic bilge pump – self-draining scuppers optional
- Solid, hand laid fiberglass hull, liner and deck
- Single piece, foam-filled molded stringer system
- Stainless steel hardware and fastenings throughout
- Strong tow rings bow and stern
- Self-bailing
