

Bonefish Hill Tide 22

Boat Type: Bay Boat

OVERVIEW

Blurring the line between a flats boat and a bay boat, the Hill Tide 22' has all of the amenities necessary for the inshore angler. Her low profile makes it easy to land fish while the wide spray rail keeps occupants dry when running between spots. Built for versatility, this boat is designed to excel in both fresh and saltwater. In its stock configuration, the Hill Tide 22' has jump seats, cooler storage, two bait wells, two forward rod lockers, cast net locker(s), loads of storage and your choice of outboard power. She's super strong, being designed using our semi-monocoque technique and built from carbon fiber, kevlar and fiberglass laminated in a blend of epoxy and vinyl ester resin. Options include a standing mid-station console, t-top, hard top, tower, electronics, shallow water anchor system, porta-potti and trolling motor.
