

Bonefish Tortuga 30

Boat Type: Center Console

OVERVIEW

The Tortuga 30' delivers big boat performance in a package that can be comfortably towed on a trailer or behind a yacht. The precisely engineered hull geometry obliterates waves while directing errant water away from the boat. This makes the Tortuga one of the driest center console fishing boats available under 34 feet in length. The v-pad stepped bottom of the Tortuga creates a comfortable ride, reduces pitch and roll, and allows the boat to be operated more efficiently than her contemporaries. With over 80 gallons of standard live-wells and a 180 gallon insulated fish box, this center console can play with the big boys at any fishing event.
