Pathfinder 2300 HPS

Boat Type: Sport Fishing

OVERVIEW

Technology and performance in a bay boat redefined.

This is tomorrow's Pathfinder today. The first bay boat built specifically around Yamaha's Super High Output (SHO) four-stroke technology, the 2300 HPS (High Performance Step) redefines top-end running performance in a true bay boat platform. A stepped hull and bustle transom with standard 6" jackplate optimize speed and running efficiency. Add to that more cockpit and deck space, walk around gunwales and increased storage for everything from castnets to 9.5' fly rods. The result is a jaw-dropping rocket with a light-tackle payload capacity that will clear out your tackle room.
