Beneteau Swift Trawler 34

Boat Type: Trawler

OVERVIEW

Resulting from the joint collaboration of Joubert-Nivelt and Beneteau Powerboat, the Swift Trawler 34 is built on a semi-displacement hull designed to cut through the waves with minimal resistance. Her wide range of speed, skilful construction, and impressive turning radius always provide the upmost comfort underway. She is available with or without flybridge.

The Swift Trawler 34 has an innovative asymmetrical deck that optimizes the interior layout to make life on board more comfortable. With two double cabins, a lounge that converts into an extra cabin and a functional U-shaped galley, the interior is full of space. Fitted in ornate mahogany paired with taupe upholstery and the option to customize, the interior defines elegance.
