Beneteau Swift Trawler 44

Boat Type: Trawler

OVERVIEW

The Swift Trawler 44 is the result of a joint collaboration by the Beneteau design office, the architect Michel Joubert and the designer Pierre Frutschi. Underway, her semi-displacement hull offers very enjoyable sensations at all speeds, as well as terrific stability as she breaks through the waves. She is timelessly elegant, combining classic style and great modernity.

Designed to increase the living space, the interior of the Swift Trawler 44 is full of light. Her fittings have a variety of functions and there are a large number of storage spaces. Her cabins look like rooms and in a few steps the convertible sofa turns the salon into a guest room. The ergonomic helm station and anti-glare windshield enhance safety underway. The Mahogany woodwork adds a classic yet contemporary touch, creating a warm atmosphere.
