Dehler 46

Boat Type: Cruiser

OVERVIEW

You can only build a yacht like the Dehler 46 if you are a sailor through and through. Only someone whose first thought when they wake up and their last thought at night is this wonderful sport is obsessed enough to fine-tune every detail to perfection. As pioneers in the German GRP boat building we at Dehler have been doing this for over 50 years and the results make our customers and employees equally proud.

Our passion for building the perfect yacht is based on clear values. The Dehler 46 is the epitome of these values and thus reflects our enthusiasm for true boat building artistry. Immerse yourself in the world of Dehler.

SPECIFICATIONS

Basic Information

Manufacturer:	Dehler	Boat Type:	Cruiser
Model:	46	Hull Material:	Fiberglass
Year:	2019	Hull Type:	Monohull
Category:	Sail		

Dimensions & Weight

Length:	46.00 ft	Draft - max:	6 ft 2 in - 1.88 meter
LOA:	48 ft 5 in - 14.76 meter	Bridge Clearance:	72 ft 8 in - 22.15 meter
Beam:	14 ft 3 in - 4.34 meter	Dry Weight:	24691 ft
Deadrise Aft:	-		

Tank Capacities

Fuel Tank:	55 gallons - 1 tank(s)	Holding Tank:	-
Fresh Water Tank:	118 gallons - 1 tank(s)		

Accommodations

Total Cabins:	2	Crew Cabins:	-
Total Berths:	-	Crew Berths:	-
Total Sleeps:	-	Crew Sleeps:	-
Total Heads:	1	Crew Heads:	-
Captains Cabin:	No		

FEATURES

Exterior Features:

- The innovative vacuum infusion technology ensures that the 13.95 meter long hull made of water-resistant vinylester resin is 20 percent more rigid than conventional designs. The steep stem extends the waterline and results in increased hull speed. As standard the Dehler 46 comes with a 2.25-meter-deep keel, while the competition version carries with a keel depth of 2.50 meters. Optional for sailing in areas with shallow waters is a keel with 1.85 meter draught. We also provide a 2.45m deep going West Coast L-Keel.
- The Dehler 46 is equipped with high-quality Elvstrøm sails. You can choose between Fast Cruising Laminate sails or HPM sails made from vectran/polyester against delamination. These are lighter and more stable with a longer life span, allowing the boat to sail faster, higher and more upright without losing speed in the waves.
- The Pauger High Tech Carbon Rig - With an increased length by one meter and its carbon spreaders, the carbon mast and its increased sail area enhances the sailing characteristics close to the wind and in rough sea due to lower topweight. They are far more weather resistant than aluminium masts. Carbon will bring you comfort, security and performance!
- Flush hatches on coach roof.
- Storage locker with recess for stable foot rest.
- The elegant and roomy cockpit provides space for the whole crew.
- Teak covered bathing platform with integrated swimming ladder.
- The mast is keel stepped for better performance.

- The new Dehler design is recognized by the dynamic line of the cabin windows, which can all be opened individually. These are additionally emphasised due to the aluminium frame.
- Hidden halyards allows the deck design to be clean-cut.
- Full control at helmsman position thanks to the elegant instrument consoles.
- Space for the whole crew in the protected cockpit.
- Removable table and wide passageway.
- Recessed into the floor, the mainsheet traveller allows an ideal trim of the mainsail.

Interior Features:

- The central area of the interior provides many remarkable ways of using space efficiently. For example, the salon cabinets with their unusual radius open upwards in a practical fashion.
- Full control at the generous navigation area.
- Pop-up minibar in salon.
- Lots of clever stowage throughout the boat.
- Foldable salon table with integrated bar compartment.
- Spacious galley with integrated 130l fridge accessible from above and below.
- The cooker cover can be used for lots of different things: as a surface to rest things on or as a cutting board.
- Beautiful designed head with separate shower and Dehler Uni Door System.
- Dehler Uni Door System. When the toilet and shower room is closed, the door makes the way free through from the wash area to the living area. The flooring runs through continuously. A uniform design blends both rooms harmoniously together.
- Generous washbasin with large mirror and lots of storage space for your daily utensils.
- The standard Dehler 46 has an owner's cabin with head, a spacious aft cabin starboard and a large accessible stowage on portside including a bunk berth which can be used for board equipment or as a sail locker. However, you can also choose to have a second aft cabin at this place.
