

Coastal Craft 40

Boat Type: Motor Yacht

OVERVIEW

40. The perfect balance.

Speed, fuel efficiency, luxury and affordability. Choose all four with the Coastal Craft 40. Her lightweight aluminum hull, hand made in Canada, combined with her twin Volvo D-6 435hp Diesel engines, give the 40 that perfect combination of range when it is needed, and speed when it is wanted.

POWER

Fast and stylish, the modest deadrise of the planing hull configuration ensures a dry and comfortable journey, capable of reaching speeds in excess of 37 knots yet offering on-plane speeds in the low teens. The low profile design gives stability and correct trim, a smooth ride and excellent visibility throughout the vessel.

PERFORMANCE

Every Coastal Craft yacht starts with the strongest & lightest materials available to the industry. The commercial grade welded aluminum planing hull and structure provide unmatched strength that contribute to our legendary reputation for safety and sea kindliness. Simply put, it's hard to find a stronger better built boat.

TECHNOLOGY

Reduced sound levels enhance your boating experience, and it is our goal to ensure we offer the best solutions for sound control through out our yachts. We have developed sound dampening materials and insulating processes that result in exceptionally low sound levels onboard all Coastal Craft yachts, providing greater enjoyment for all our boaters.

SPECIFICATIONS

Basic Information

Manufacturer:	Coastal Craft	Boat Type:	Motor Yacht
Model:	40	Hull Material:	Aluminum
Year:	2019	Hull Type:	
Category:	Power		

Dimensions & Weight
