Princess R35

Boat Type: Motor Yacht

OVERVIEW

Provocative, cutting edge, exhilarating - 35ft in length, fully carbon fibre, powered with V8 engines and with an impressive top speed of 50 knots - announcing the highly anticipated, all-new R Class.

Princess Yachts are proud to have partnered with BAR Technologies and Pininfarina to bring a whole new breed of yacht to market with the very latest in advanced technology and naval architecture. The all-new R Class will feature the unique Princess Active Foil System (AFS) and deliver the fastest and most efficient Princess boating experience to date. The striking exterior reflects one of the most compelling and innovative designs we have ever created and conceals a spacious cabin within. Featuring a well equipped galley and seating area, with the added flexibility to convert to a generous double berth, further complemented by an ensuite.

This ground breaking new yacht remains a true Princess at heart with the same level of comfort, practicality and seakeeping found on any other Princess yacht, combined with the very latest design thinking from the Princess Design Studio and progressive performance technology.

The all-new R35 - an entirely new class of yacht.
