

Viking 92SB

Boat Type: Flybridge

OVERVIEW

Viking 92 Sky Bridge

One word best describes the 92 Sky Bridge: awesome. More than aesthetically stunning, our sky bridge design is also functional, combining all the visibility benefits of an elevated control station with the weather protection and comfort of a Viking enclosed bridge.

SPECIFICATIONS

Basic Information

Manufacturer:	Viking	Boat Type:	Flybridge
Model:	92SB	Hull Material:	Fiberglass
Year:	2020	Hull Type:	
Category:	Power		

Dimensions & Weight

Length:	92.00 ft	Draft - max:	5 ft 11 in - 1.8 meter
LOA:	93 ft 3 in - 28.42 meter	Bridge Clearance:	-
Beam:	24 ft 1 in - 7.34 meter	Dry Weight:	205000 ft
Deadrise Aft:	-		

Tank Capacities

Fuel Tank:	4015 gallons - 1 tank(s)	Holding Tank:	-
Fresh Water Tank:	485 gallons - 1 tank(s)		

Accommodations

Total Cabins:	6	Crew Cabins:	1
Total Berths:	-	Crew Berths:	-
Total Sleeps:	-	Crew Sleeps:	-
Total Heads:	7	Crew Heads:	1
Captains Cabin:	No		

FEATURES

With her two-level mezzanine and 238-square-foot tournament-ready cockpit with fighting chair, the 92 thrives as a luxury cruising yacht and blue-water sportfishing convertible.

The sky bridge command station shares many of the design traits of our open flybridge convertibles, such as the walk-around center console with raised teak helm pod and recessed and protected areas for multi-function displays, engine and steering controls and electronics controllers. With the console's molded-in step, the captain's sightlines are enhanced further. The hardtop holds an electric teaser reel and power-actuated drop-down electronics box.

Guests can relax in a pair of finely upholstered console seats or outboard lounges (with forward-facing backrests). For balance and safety, toekick space is built into the console perimeter and at the lounge bases. A refrigerated drink box and sink is conveniently located on centerline, between the lounges.

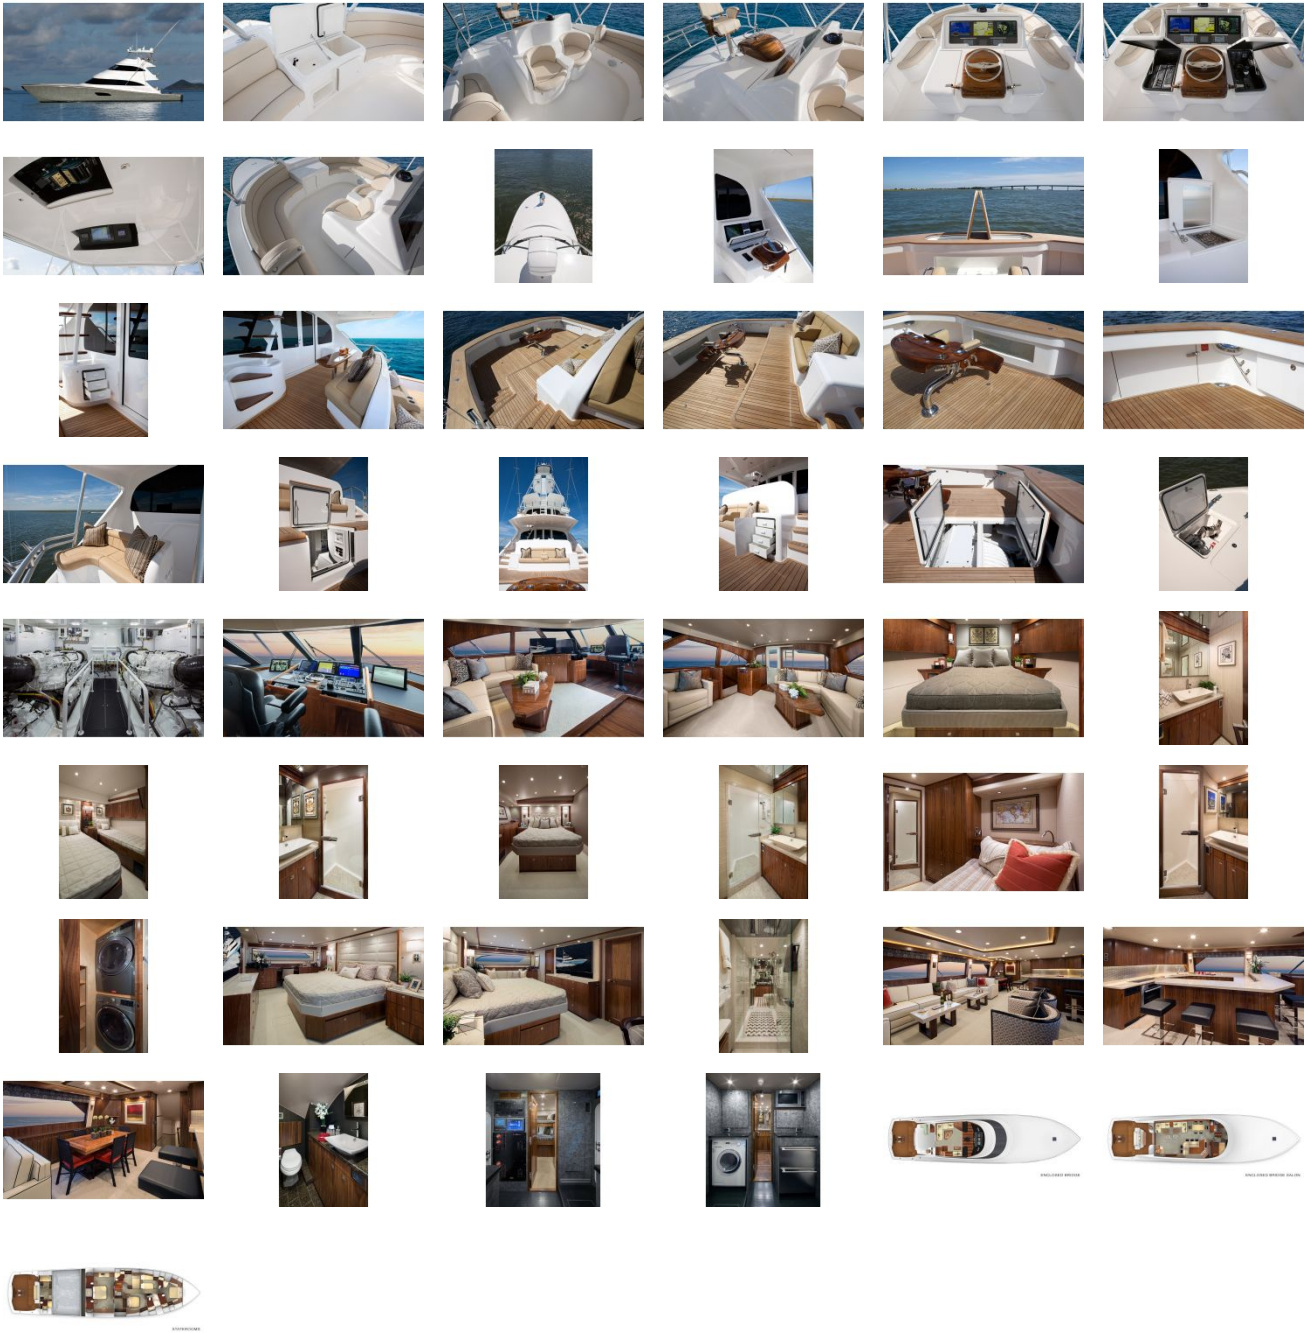

A climate-controlled retreat in itself, the enclosed bridge has a forward wrap-around console that includes a Stidd helm seat and flanking companion seating. Significant room aft allows for an L-shape lounge with a walnut cocktail table to port, another seat to starboard, refrigeration and an entertainment system.

The yacht's interior is a showpiece of elegance and luxury. The 24-foot beam not only opens the salon but transforms it into a majestic living room with built-in furniture and plush appointments like a 65-inch flat screen television that rises on a lift out of the walnut cabinetry. An L-shape island in the galley complements the work area and all countertops feature custom selected engineered stone. A pair of walk-in pantries and a full day head are forward and characterize an excellent use of space. Nearby, a formal dining area accommodates eight guests.

The 92 Convertible has six staterooms, each with its own private head and shower. The full beam master suite features a king size walk around bed, a walk-in closet, a dressing table, and his and her private facilities. Crew quarters are aft with access from the cockpit. The full beam area includes a head with a shower, a small galley area, and upper and lower berths in a private cabin.

Propulsion choices include offerings by Caterpillar and MTU. The communication, navigation and entertainment electronic package will be designed and installed by Viking sister company, Atlantic Marine Electronics. Tuna towers are designed and fabricated by Palm Beach Towers, another Viking subsidiary. Selecting our subsidiaries for standard and optional accessories allows us to deliver the 92 Convertible turnkey ready.
