Invincible 37 Catamaran

Boat Type: Catamaran

OVERVIEW

Even though the 37' is the smaller sibling to the 40', it still shares many of the same characteristics. Great seakeeping ability, efficiency, and maneuverability at all speeds. The deck is similar with the two large insulated fishboxes midship, but the flat transom and two long forward fishboxes offer a different layout compared to the 40'. The 550 gallon fuel capacity still makes long trips easy without sacrificing range at high cruising speeds. The 37' is ideal for those who want to get the fantastic features our catamarans provide but in a smaller footprint.
