Beneteau First 24

Boat Type: Cruiser

OVERVIEW

The First 24 is a stylish racer and a fast cruiser, an unparalleled compromise in the category of high-performance, transportable, cruising yachts. Ideal for racing with a crew of four, it can accommodate six on a coastal cruise, and eight on day trips.

The First 24, designed by Sam Manuard is a high-performance thoroughbred with a boldly modern hard-chine hull. Most of the standing rigging is led back to the clutches located on the companionway and two winches combined with jammers making trimming child's play. The First 24 performs particularly well in light and medium air, progressing moderately and with ease at speeds of 15 knots.

Two hatches open a large sail locker built into the bottom of the cockpit. Fenders can be stored here along with a small thermal or electric engine.

Below deck, the vast open interior of the First 24 has a large forward double berth and single berths on either side of the keel box. An ingenious cushion system means you can unite the two single berths to turn them into a double berth. The table can be carried in a bag and set up inside or outside in the cockpit and can be left on shore to make

the boat lighter for racing. A small galley with hob and icebox, chemical toilets and an electric pack combined with solar panels make the yacht fully autonomous.

The First 24 is very easy to handle, with similar sensations to a dinghy at the helm, and she sails a good speed in all points of sailing. Competitive but compliant, she performs well in regattas while remaining safe and comfortable for coastal family cruising. She has a swing keel that lifts completely, making her readily transportable and easy to launch, so mooring in shallow waters is practicable.

SPECIFICATIONS

Basic Information

Manufacturer:	Beneteau	Boat Type:	Cruiser
Model:	First 24	Hull Material:	
Year:	2020	Hull Type:	
Category:	Sail		

Dimensions & Weight

Length:	24.00 ft	Draft - max:	-
LOA:	23 ft 11 in - 7.29 meter	Bridge Clearance:	-
Beam:	8 ft 2 in - 2.49 meter	Dry Weight:	2116 ft
Deadrise Aft:	-		

Tank Capacities

Fuel Tank:	-	Holding Tank:	-
Fresh Water Tank:	-
