Coronado 21 Center Console

Boat Type: Center Console

OVERVIEW

The 21 Center Console Series is constructed with many of the quality materials found in larger Coronado models. This sister craft offers stunning good looks on a super-durable Vinyl-Ester Epoxy Resin hull skin that is foam filled and resin sealed to make all unsinkable! A precisely balanced variable deadrise hull is stable at rest yet dry and comfortable in chop. But what is even more exciting is that the special variable deadrise hull design produces much greater performance with less horsepower than other 21' center consoles. Savings in power package costs allows us to work with the finest components and materials during the construction process without breaking the bank (greater engine efficiency means lower costs in fuel and maintenance). The 21 Center Console features a stainless steel rub rail with molded Diamond Non-Skid throughout keeping the angler sure on his feet and the gentleman cruiser and his crew safe when boarding and exiting. A wide range of color options and interior fabrics lets each owner put their unique signature on this center console that will turn heads at every port. New for this year, the 21 Center Console Series from Coronado Boats is a tremendous value in the famous line of Coronado luxury watercraft.

SPECIFICATIONS
