Hanse 455

Boat Type: Cruiser

OVERVIEW

At home on the high seas. The HANSE 455 has everything you could expect from a perfect cruising yacht. Why? Her lines are the creation of judel/vrolijk & co, the best and most experienced yacht designers in the world. This guarantees that she is fast, easy and safe to sail in any weather.

You will be surprised. You can sail this yacht single handed, whenever you like. Setting, hauling in, shortening and trimming the 103 m. sails can be carried out comfortably and directly from helmsman position. From there you will have a complete overview at all times. At HANSE, we call that "Easy Sailing". Once you have experienced it you never want to sail without it anymore!

A yacht design is the combination of functionality, modern aspects, elegance and of course, the design is always based on this task. A cockpit must be safe, large enough and comfortable. The deck must be safe to walk on even in bad weather. Portholes and windows must provide lots of light and air. With the HANSE 455, the design is a perfect success!

The interior is a balanced composition of many components. The room proportions and lighting play an important

role, alongside colours, furniture design, fabrics and many special details. When you feel at home on board, we've got everything right!
