Hanse 505

Boat Type: Cruiser

OVERVIEW

At home on the high seas. The HANSE 505 has everything you could expect from the perfect cruising yacht. Why? Its lines are the creation of judel/vrolijk & co, the best and most experienced yacht designers in the world. This guarantees that it is fast, easy and safe to sail in any weather.

You will be surprised. You can sail this 14 ton yacht on your own, whenever you like. Setting, hauling in, shortening and trimming the 129 m² sail can be carried out comfortably and directly from helmsman position. From there, you will have a complete overview at all times. At HANSE, we call that „Easy Sailing“. You won't want to sail without it!

Hanse yacht design is the combination of function, modern aspects and elegance. And of course, the design is always based on the task. A cockpit must be safe, large enough and comfortable. The deck must be easy to walk on even in bad weather. Portholes and windows must provide lots of light and air. With the HANSE 505, the design is a perfect success!

The interior is a balanced composition of many components. The room proportions and lighting play an important role, alongside colours, furniture design, fabrics and many special details. When you feel at home on board, we've got everything right!
